Moderation in everything is the secret of joy.

It will be time enough to boast when to-morrow is past.

Happy is the man who never recognizes defeat and despair.

When a man gets a reputation as a clever conversationalist you may be sure that he never will be famous.

A New York woman who lost \$20 at a card party called for the police and had the game broken up. She needn't expect to be invited out much after this.

Hudson Maxim announces that he has completed an invention which will make armor-plate useless. This ought to help some more toward the establishment of universal peace.

Government scientists claim that the eating of raw meat will enable people to become strong mentally and physically. It may be, however, that mental and physical strength can be achieved in more pleasant ways. If so they ought to be discovered.

Premier Campbell-Bannerman says the British house of lords will be reformed. Owing to the fact that the lords will have to vote in favor of reformation before it can be achieved, there are strong reasons for believing that the premier is merely guessing.

It is estimated that more than 1,000,000 hares are shipped from Maine every year and as many more used as food within the state. Notwithstanding this, and the fact that thousands of hares are devoured every year by beasts and birds of prey, this small animal continues to increase.

Mlle. Andre Corbis, still a young woman, whose poems in the volume entitled "Gemmae et Mores" have won high praise, has been chosen poet laureate of France for the year passed. The honor is one conferred annually by a vote of eminent literary people on the most distinguished poet of the year.

It is Prof. Henry A. Sill of Cornell who has found a classical justification of the slang expression "23" in Plutarch's account of the assassination of Julius Caesar, where it is recorded that the cause of his farewell was 23 wounds inflicted by the senatorial conspirators. Some may think that this is silly.

Lord Walsingham, acknowledged to be the finest shot in England, is probably the only man in the world whose aim is so accurate that he can shoot worms on the wing. He is also an accomplished writer, one of the first entomologists of the day, a fellow of many learned societies and owner of the finest collection of moths and butterflies in the world.

In the former douma last year there were comparatively few young men and many old ones, there being twice as many over 50 years of age as there were under 30. Now the proportion is almost exactly reversed. About one-fifth of the members are under 30, while one-tenth are over 50. Between these ages the majority are nearer the younger than the older figure, 40 per cent. being between 30 and 40, while only 30 per cent. are between 40 and 50. Analyzed by classes or parties, the monnik, or peasant members are the youngest of all and the reactionaries are the oldest.

The World's Work obtains from the last census the surprising fact that among the working women of the United States there must be included nearly 2,000 stock raisers and drovers, almost as many fishermen and oystermen, and more than 1,300 miners and quarrymen. Also there are 167 masons, 126 plumbers and fitters, 879 watchmen and policemen, 196 blacksmiths, 113 wood-choppers, 154 boatmen and sailors, 100 lumbermen, 43 carriage and hack drivers, 26 switchmen and yardmen, 31 brakemen, 6 ship carpenters, 21 stevedores, 18 longshoremen, 84 civil engineers and surveyors.

In the great basin between the Rockies and the Sierra Nevada lie the ghosts of many dead lakes. Rivers still flow down the dry edges of these one-time great reservoirs, and are licked up by evaporation and the Chinook winds. Of all the lakes that once lay there, only Great Salt Lake, Lake Tahoe and Bear Lake are left. The Southern Pacific rolls for 165 miles across the bed of what was once Lake Lahontan, and passengers gazing idly from the windows may see the terraces and wrinkles in the crust of the fossil lake which nature robbed and defrauded of its crystal treasures ages ago.

Australia is arranging to establish a two-cent rate of postage on letters not only throughout Australia but with all parts of the British empire and all foreign countries that will deliver two-cent letters from Australia. The time is coming when two-cent ocean postage will be the universal rule.

Once in awhile a foreigner makes a really apt remark concerning the observations he has made in this country. An Austrian artist, for whom President Roosevelt "sat," declared that the president is ideally American because he could not keep him still.

ADVICE TO RHEUMATICS

Noted Physician Tells How to Prevent and Cure Rheumatism, Kidney and Bladder Troubles.

(By Geo. Edmund Flood, M. D.)

If you would avoid Rheumatism and Kidney and Bladder Troubles, be moderate in the consumption of heavy, rich foods, substitute as far as possible soups, broths, fresh milk and drink water—lots of water. Take plenty of time to eat, and don't eat after you have had enough, even if it does taste good. If your work is confining take a moderate amount of exercise each day in the open air.

Of course, neither diet, water, rest nor exercise will cure these afflictions. I advise them as preventives only. For the benefit of the readers of this article who are now afflicted with Rheumatism, Kidney, Bladder or Urinary trouble, and desire to be cured quickly, I give below, complete in every detail, the famous prescription which has made me so successful in the treatment of these diseases. It is the most certain cure for these diseases that I have ever used. It is pleasant to take, it is not expensive, it can be filled by any druggist, and I believe it is the greatest prescription for Rheumatism, Kidney and Bladder Trouble ever written. It is also a valuable spring tonic and blood purifier. If you are a sufferer, save this, take it to your druggist and have it filled, or get the ingredients and mix them at home.

Fluid Extract Cascara Aromatic, 1/2 ounce.

Concentrated Barkola Compound, 1 ounce.

Fluid Extract Prickly Ash Bark, 1/2 drachm.

Aromatic Elixir, 4 ounces.

Adult dose, take one teaspoonful after meals and at bedtime; children, one-fourth to one-half teaspoonful after meals.

After you are cured follow the advice I have given you in regard to diet, exercise and water, and you will not need the services of a physician again for these ailments.

HOW CLASSIC WAS WRITTEN.

Bret Harte's Great Poem Result of an Inspiration.

The war correspondent, Frederic Villiers, has recorded a talk with Bret Harte apropos of the poem, "Dickens in Camp." "We all felt his loss most keenly in the States," said Harte.

"On learning of his death (I) sat down about three in the afternoon to write an editorial on the great author. Then another, after much pains, was written. This did not please me, so I tore it up. I wrote yet another and threw it into the waste paper basket; it would not do. It was getting late, and I was now keeping the paper waiting for press. I was drumming on my desk, absolutely without another thought in my head; I had run dry. Suddenly I mechanically began to write and the result was the thing you seem to like so much. Well, Mr. Villiers, you are not far out. I like it, too."

Shipwrecked Sailors Saved.

Eleven men, members of the crew of the Norwegian antarctic expedition ship Catherine, have been rescued after having been cast away on one of the Crozet isles in the southern Indian ocean, far off the track of commerce. They were found in exceedingly good health, having subsisted on penguins, sea elephants, albatross eggs and food from the depot placed there in 1880. The latter was not particularly wholesome, but the men got used to it. One bottle of whisky which was washed ashore was kept for Christmas. They were short of matches, and used only one daily, and made every effort to keep alight a lamp, owing to the severe cold.

APPENDICITIS.

Not at All Necessary to Operate in Many Cases.

Automobiles and Appendicitis scare some people before they are hit.

Appendicitis is often caused by too much starch in the bowels. Starch is hard to digest and clogs up the digestive machinery—also tends to form cakes in the cecum. (That's the blind pouch at entrance to the appendix.)

A N. H. girl had appendicitis, but lived on milk for awhile—then Grape-Nuts and got well without an operation.

She says: "Five years ago while at school, I suffered terribly with constipation and indigestion." (Too much starch, white bread, potatoes, etc., which she did not digest.)

"Soon after I left school I had an attack of appendicitis and for thirteen weeks lived on milk and water. When I recovered enough to eat solid food there was nothing that would agree with me, until a friend recommended Grape-Nuts.

"When I began to eat Grape-Nuts I weighed 98 lbs., but I soon grew to 115 lbs. The distress after eating left me entirely, and now I am like a new person."

(A little Grape-Nuts dissolved in hot water or milk would have been much better for this case than milk alone, for the starchy part of the wheat and barley is changed into a form of digestible sugar in making Grape-Nuts.) Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

DON'T GRUMBLE AT TRIFLES.

Twenty-five Bushels Wheat and Forty-five Bushels Oats Per Acre Are in Western Canada.

Salteats, Sask., 8th December, 1906.

To the Editor.

I willingly give you the result of my four and a half years' experience in the District of Salteats.

Previous to coming here I farmed in Baldwin, St. Croix County, Wisconsin, and as I have heard a great deal about the Canadian North-West, I decided to take a trip there and see the country for myself. I was so impressed with the richness of the soil that I bought half a section of land about five miles from the town of Salteats. I moved on to the land the following June and that year broke 90 acres, which I cropped in 1904, and had 39 bushels wheat per acre. In 1905, with an acreage of 160 acres, I had 24 bushels wheat and 35 bushels of oats per acre. In 1906, with 175 acres under crop, I had 25 bushels wheat and 45 bushels of oats per acre.

From the above mentioned yields you can readily understand that I am very well pleased with the Canadian West. Of course, I have had to work hard, but I don't mind that when I get such a good return for my labor.

To anyone thinking about coming to this country I can truthfully say that if they are prepared to work and not grumble at trifles, they are bound to get on. Some things I would like different, but take the country all round, I don't know where to go to get a better.

Yours truly,
(Signed) O. B. OLSON.

HENS KNEW THEIR BUSINESS.

Never Would They Lay Anything but the Freshest of Eggs.

There is a German dairyman and farmer, whose place is not far from Philadelphia, who greatly plumes himself upon the absolute superiority of his products above all others in the vicinity.

On one occasion he personally applied to a Germantown housekeeper for a transfer of her custom to himself. "I hear dot you haf a lot of drouble with dot dairyman of yours," he said. "Yust you gif me your gustom and der vill be no drouble."

"Are your eggs always fresh?" asked the woman.
"Fresh!" repeated the German, in an indignant tone. "Let me delt you, madam, dot my hens nefer, nefer lay anything but fresh eggs!"

BLOOD GETS SOUR.

Gives Advice and Tells of Simple Home Mixture.

At this time of year, says a well-known authority, the Kidneys become weak, clogged and inactive, failing to filter out the poisons and acids, which sour the blood, causing not only facial and bodily eruptions, but the worst forms of Rheumatism, Nervous and Stomach troubles, Backache and painful, annoying urinary afflictions.

It is worth anyone's time now to get from some good prescription pharmacy the following ingredients: Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after your meals and at bedtime.

This simple home-made mixture will force the Kidneys to normal healthy action, so they will filter and strain all uric acid and poisonous waste matter from the blood, and expel this in the urine, at the same time restoring the "red blood count"—that is, 95 per cent. red blood corpuscles—which is absolutely indispensable to perfect health.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed, you have a rumbling sound or intense itching; and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; else cases of deafness are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE CHANGE OF LIFE

Sensible Advice to Women from Mrs. Henry Lee. Mrs. Fred Certia and Mrs. Pinkham.

MRS. HENRY LEE MRS. FRED CERTIA

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

This is the most critical period of her whole existence and every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition or she is predisposed to apoplexy or congestion of any organ, the tendency is at this period likely to become active and with a host of nervous irritations make life a burden. At this time also cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, melancholia, dread of impending evil, palpitation of the heart, irregularities, constipation and dizziness are promptly heeded by intelligent women who are approaching the period of life when this great change may be expected.

Mrs. Fred Certia, 1014 So. Lafayette Street, So. Bend, Ind., writes:

Dear Mrs. Pinkham:—

"Lydia E. Pinkham's Vegetable Compound is the ideal medicine for women who are passing through Change of Life. For several months I suffered from hot flashes, extreme nervousness, headache and sleeplessness. I had no appetite and could not sleep. I had made up my mind there was no help for me until I began to use Lydia E. Pinkham's Vegetable Compound, my bad symptoms ceased, and it brought me safely through the danger period, built up my system and I am in excellent health. I consider Lydia E. Pinkham's Vegetable Compound unsurpassed for women during this trying period of life."

Mrs. Henry Lee, 60 Winter Street, New Haven, Conn., writes:

Dear Mrs. Pinkham:—

"After suffering untold misery for three years during Change of Life I heard of Lydia E. Pinkham's Vegetable Compound. I wrote you of my condition, and began to take Lydia E. Pinkham's Vegetable Compound and followed your advice, and today I am well and happy. I can now walk anywhere and work as well as anyone, and for years previous I had tried but could not get around without help. I consider your medicine a sovereign balm for suffering women."

When a medicine has been successful in restoring to health, actually thousands of women, you cannot well say without trying it, "I do not believe it will help me." It is your duty to yourself and family to try Lydia E. Pinkham's Vegetable Compound.
